Solamente con VoIP.

Rare Disease Day 2022

Monday, February 28, 2022, is Rare Disease Day worldwide.

The National Institutes of Health will hold virtual **Rare Disease Day** events on Monday, February 28, 2022:

<https://videocast.nih.gov/watch=44155>

Participants in the first annual meeting, held in February 2020.

Who: Presenters will include people personally affected by olfactory neuroblastoma, and medical and scientific experts from the National Institute on Deafness and Other Communication Disorders (NIDCD), the National Cancer Institute, Johns Hopkins, and other major hospital centers throughout the United States.

What:

- Perspectives from patients and family members affected by olfactory neuroblastoma.
- Information on advances in surgery, radiation, and other treatments.
- Research updates on genomics, outcomes, and clinical studies.
- Information about clinical trials.

This meeting is directed by Nyall R. London, Jr., M.D., Ph.D.; Gary Gallia, M.D., Ph.D.; and Murray Ramanathan, M.D.; and is sponsored by the NIDCD.

Please direct any questions or reasonable accommodation requests to Dr. London, principal investigator of the NIDCD Sinonasal and Skull Base Tumor Program (<https://www.nidcd.nih.gov/research/labs/sinonasal-and-skull-base-tumor-program>), at nyall.london@nih.gov or 301-402-4216.
